Sanitol Tooth Powder.....	15c
Spiro Powder.....	15c
Odorono (medium size).....	50c
Djer Kiss Talcum.....	35c

## FEAR FEELING OF CELEBRITY LOAN

Treasury's Review Warns  
People of Need for Effort  
to Put Victory Liberty Is-  
sue Safely Over Top.

WASHINGTON, April 25.—Fear that many people regard the Victory Liberty loan as certain of success without the usual efforts was expressed today in the treasury's official review of the loan campaign. There were no additional reports to raise the nation's total subscriptions above \$356,436,000, tabulated last night.

Explaining that the total reported did not represent fully actual subscriptions, the treasury review said: "It is impossible to estimate a total amount of all sales, but reports from various districts, saying returns were being made slowly by local committees supplied good basis for the belief that the loan campaign was going well in many territories because of the official sales indicated."

Managers of the Cleveland district reported today that the loan was going well in that territory because of the fact that the Cleveland district had been closed for months. Industrial centers, such as Pittsburgh, Akron and Youngstown, however, were doing thriving business. The Cleveland district today reported sales of \$102,250,000. Honor checks have been awarded to 23 communities.

One of the battle tanks used to advertise the loan was engaged yesterday in wrecking a brewery. The headquarters review commented that this "forebodes certain events of national importance scheduled to take place on July 1."

Oklahoma leads states of the Kansas City district in amount of subscriptions.

German and Italian foreign language groups in Chicago are endeavoring to determine which shall round up the most subscriptions. The German group was ahead today. Sixteen Italian counties in the Chicago district have reached their goals.

In New England 38 communities have won honor flags and 61 of these are in Vermont.

San Francisco district managers today predicted they would reach \$2,000,000 by the end of the week.

Fifteen counties in the Atlanta district have subscribed their allotments. Galveston, Tex., described by the headquarters review as "always one of the first cities to obtain its quota," has passed the 100 per cent mark.

## GERMANY QUIETING DOWN ONCE MORE

BERLIN, April 25.—(By the Associated Press.)—Almost as suddenly as the recent strikes began, Germany appears to be quieting down again. The coal miners in the Ruhr district are returning to work in increasing numbers and those in the Posen and Muehlheim districts, who had been on strike for other places, have returned to the collieries.

The fact that the men are resuming work is remarkable because the communists at their more recent meetings have urged a continuation of the strike. Men who formerly headed this appeal have rejected it almost unanimously.

A big factor has been the distribution of American food, which has proved a special attraction to laboring men. The situation in Brunswick has quieted down. Almost normal conditions prevail and industries are working again for the first time in a fortnight, the workmen having almost all returned.

Hamburg is almost the only city, with the exception of Munich, where strikers have not quieted down, at least for the moment. Military forces are still in charge at Hamburg, and the police have succeeded yesterday in bringing about order after communists had vainly stormed the police station.

## BULLS PLAN TO BEAT COTTON REDUCTION

JACKSON, Miss., April 25.—(By the Associated Press.)—A scheme to defeat the cotton reduction movement of the Southern farmers, known as the "bull" movement, is being tried in Texas by cotton bulls, according to a letter from Fred W. Davis, commissioner of agriculture for Texas, to P. P. Garner, commissioner for Mississippi, who is wanted to be on the lookout for such a movement in this part of the South.

An Commissioner Davis puts it, the scheme is: "There is a concerted scheme, evidently, being promoted throughout Texas, and probably throughout the South, which demands attention. The cotton buyers are going into the country, for 20 miles in many instances, to advise the farmers to reduce their cotton crop to 50 per cent of the normal crop."

"When cotton is reduced to 50 per cent of the normal crop, the cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton. When this is done, the cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton."

The cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton. When this is done, the cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton.

The cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton. When this is done, the cotton buyer will be able to pay the farmer 50 per cent of the normal price for his cotton.

## U. S. SEEKING BIDS ON 462 WOODEN HULLS

WASHINGTON, April 25.—Bids for the purchase of 462 wooden hulls and 462 wooden hulls are being asked by the shipping board, as part of its program for disposing of surplus bottoms constructed during the war emergency.

"The building program was a gigantic one in proportion and so successful in accomplishment that with the sudden ending of the war it was found more keels had been laid and ships completed than will now be required by the government," the announcement said.

Ship fitters, such as engines, boilers, winches, cables, etc., can be furnished by the emergency fleet corporation to complete the ships, if necessary. In the majority of cases a material for the completion of the vessels has been accumulated and is in the yards which permits of arrangements being made for their quick completion. It was said the vessels could be converted into sailing vessels or barges or equipped with internal combustion engines, if desired, instead of being equipped as steamers.

Bids must be in by May 26 and accompanied by certified check for 10 per cent of the amount of the bid.

The hulls vary in the percentage of completion. Most of them are 100 per cent complete, 470 tons, and the barges are 2,000 tons.

## DANIELS CALLS UPON NAVY TO BUY BONDS

WASHINGTON, April 25.—Secretary Daniels, from Europe, today called upon the navy to buy Victory loan bonds, an appeal to every man in the navy to subscribe for at least one Victory loan bond.

The secretary's message will be flashed by wireless from the world to all ships and stations of the navy.

## SEEK RATE BOOSTS.

WASHINGTON, April 25.—Increases in refrigeration charges on carload shipments of vegetables, fruits, berries and melons from Georgia and Alabama to various destinations in the United States and Canada were asked in a petition filed today with the interstate commerce commission by Southwestern railroads.

## HUNS EXTEND TIME.

BERLIN, April 25.—(By the Associated Press.)—The date for reporting and turning in foreign securities requisitioned by the government for food payments has been extended to May 1 because of the bank strike in Berlin and other cities which has tied up its depositors for 12 days.

## Delicious Refreshments Cozy Confectionery

Drop in our confectionery when you are tired shopping, or to meet your friends. You'll find our delicious refreshments delightful and courteous service most excellent.

DINSTUHL'S  
64 N. MAIN ST.

## War Secret Given Out Shows Trees Are Radio Stations

WASHINGTON, April 25.—Discovery that every tree is a potential wireless tower, was announced today by Maj. Gen. Squier, chief signal officer of the army, revealing another war secret and telling the story of how, while hostilities were on, ashore and afloat, the American army with a string of stations using tree tops as antennae read messages from and to the principal European radio stations.

Gen. Squier made his disclosure in a paper read before the Physical Research Society, meeting here. Afterward he took the scientists out into the woods and demonstrated a portable field laboratory erected there for experiments in development of the discovery. He showed how nature's wireless tower was nothing more than a tall tree, preferably eucalyptus, with a small wire netting spread below and an insulated wire running from a radio driven near the top.

The paper, which discussed the phenomenon in technical detail, described how the general began experiments in 1904 with a view to using growing trees as antennae, his attention first being attracted to the subject by the discovery during army maneuvers that telegraph and telephone buzzers, inoperative with ordinary grounding because of the dry season and unusual character of the soil, became operative when connected with the trunk or roots of a tree.

The tree top radio has been used with perfect results so far only in receiving, but also has been used successfully for transmission over short distances. Radio telegraphic messages have been received through trees, transmitted by them to Washington and there transferred to the wire system.

## WAR SUPPLIES SOLD AT 91 PER CENT OF COST

WASHINGTON, April 25.—Prices received by the war department in the sales of surplus supplies totaling \$140,000,000, the war department announced today, averaged 91 per cent of the initial cost. Military railway material disposed of brought \$71,000,000, exactly what these supplies cost the government.

Aircraft production material was sold at 90 per cent of its cost, and ordnance supplies brought 87 per cent.

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful, clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.
